ROLLO-TECH

Ball Bearing Guide For Q-XL Film Carriage

- ✓ The **ROLLO-TECH** film carriage guiding system provides an innovative solution for the **Q-XL STRETCH** vertical movement.
- ✓ **12 sealed ball bearings** roll on a steel track and completely eliminate any risk of carriage **jamming or vibration**.
- ✓ Eliminates mechanical and electrical failure due to jamming and vibration.
- ✓ Requires **Zero Maintenance** when compared with less expensive UHMW sliders.
- ✓ **Mach 1** strongly emphasizes on **innovative design** solutions that ensure robust packaging equipment .
